

## Harvey Academy Beats National Proficiency Levels!

The Harvey Academy in Tequesta, Florida is pleased to announce their 4<sup>th</sup> and 8<sup>th</sup> grade students outperformed national math and reading proficiency scores *despite* the recent pandemic. The Harvey Academy is a private school accepting students, 3rd-12<sup>th</sup> grades, with Dyslexia, Dyscalculia, Dysgraphia, ADD, ADHD, anxiety, as well as other learning challenges. Harvey Academy students take the Iowa Test of Basic Skills each spring.

Owner Nancy Harvey says, “Small class size, targeted instruction, and meeting student needs makes a measurable difference,” and she is “pleased, but not surprised” by the results. “Our English teachers are Wilson trained and our math teachers receive Dyscalculia training from EduCalc Learning.
